<https://portfolio-shivkumar.vercel.app/>

Passionate Front End Developer with 2 years of experience in building high-performing client code using React JS and other modern frameworks. Adept at collaborating with cross-functional teams to understand user pain points and deliver impactful solutions. Committed to writing code that lasts for years, not months, while thriving in a distributed-first work culture.

## EXPERIENCE

**Assistant System Engineer** - Tata Consultancy Services | Dec 2021 - Present

- Collaborated closely with cross-functional teams to enhance features on the Sony-Liv web platform using React JS.
- Developed new line items for the HDFC Enhancement project, ensuring timely delivery and maintaining high code quality.
- Resolved complex website issues while demonstrating strong problem-solving skills and attention to detail.

**Full Stack Web Developer** - [Intern] - Shape AI | Jun 2021 - Aug 2021

- Acquired proficiency in full stack technologies including HTML5, CSS, Bootstrap, JavaScript, React JS, Node JS, Express JS, and MongoDB.
- Developed web projects like a Book My Show clone using React JS and a Task Manager using HTML, CSS, and JavaScript.

**Software Developer** - [Intern] - Techciti Technologies | Jun 2020 - Jul 2020

- Created a responsive "Tourism & Analysis" web application using HTML5, CSS, Bootstrap, and Python.
- Contributed to the development of web pages and earned recognition as a certified software engineer intern.

## PROJECTS

**Shopeasy - A ecommerce website**

- Developed an e-commerce website using React.js, CSS for styling, and integrated Redux Toolkit for state management.
- Implemented navigation using React Router-DOM, enabling efficient page transitions.
- Created essential features, including product filtering, sorting, and searching functionality.

- Designed product details pages with features like "Add to Cart" and "Favorite," enhancing user interactivity.
- Implemented a simplified purchasing process within the cart page.
- Leveraged custom hooks and Higher-Order Components (HOC) for project completion.
- Successfully fetched and displayed coin data from the "fakestore" API.

### **CoinHub [Crypto coins website]**

- Developed a responsive crypto coin tracking website using React.js and integrated CoinGecko API for real-time data.
- Applied modern styling techniques with CSS and Bootstrap, ensuring a seamless user experience.
- Successfully deployed the site on Vercel within the specified timeframe.

### **BookMyShow - Clone**

- Replicated the Book My Show experience using React JS, fetching data from TMDB Movie database.
- Ensured responsiveness and applied Tailwind CSS for modern styling.
- Deployed the project on "Vercel" to showcase skills in web development.

## **EXPERTISE**

- React.js, JavaScript, HTML5, CSS3
- Redux Toolkit, Modern JavaScript frameworks (React)
- Testing frameworks (Jest)
- Version control (Git),
- AdobeXD, Figma

## **EDUCATION**

Bachelor of Engineering - Computer Science & Engineering (2017-2021)

## **CERTIFICATIONS**

- Achieved a certified proficiency in ReactJs (Basics) through HackerRank, validating competence in fundamental React.js concepts.
- Attained recognition from Google Digital Garage with a certified completion of their comprehensive training program.
- Successfully fulfilled an internship, earning formal acknowledgment for the completion of the program and the practical skills acquired during the tenure.

## **LANGUAGES**

English, Kannada, Telugu
