EXPERIENCE

Assistant System Engineer - Tata Consultancy Services | Dec 2021 - Present

Maintained Sony-Liv web Platform and resolved website issues while working with React JS. Developed new line items for the HDFC Enhancement project using JavaScript as per customer requirements within the given timeline. I played a key role in developing new line items requested by customers. I used JavaScript technology to implement the required functionality.

Full Stack Web Developer - [Intern] - Shape AI | Jun 2021 - Aug 2021

I learned full stack technologies including HTML5, CSS, Bootstrap, JavaScript, React JS, Node JS, Express JS, and MongoDB. My responsibilities included learning and developing web projects, such as a Book My Show clone using React JS, a Task Manager using HTML, CSS, & JavaScript, and a Zomato landing page using HTML & CSS

Software Developer - [Intern] - Techciti Technologies | Jun 2020 - Jul 2020

Developed "Tourism & Analysis" web application using HTML5, CSS, Bootstrap, and Python. Responsible for creating responsive web pages and certified as a software engineer intern.

PROJECTS

CoinHub [Crypto coins website]

Created a website to track crypto prices using React.js and Coin-Gecko API. The website is responsive and styled with CSS and Bootstrap. Coin data is fetched using Axios, and the website was deployed on "vercel" within the given timeframe.

BookMyShow - Clone

I cloned the Book My Show website by using React JS to fetch data from TMDB Movie database. The website was designed to be responsive and styled with CSS and Tailwind CSS. Finally, I deployed the project on "Vercel" within the given time frame
